Daily Health Self-Screening Requirements and at Home Daily Checklist for Employees, Parents, Children and Essential Visitors.

All School Employees, Parents, Children and Essential Visitors will need to complete a daily health self-check by answering the questions listed below and by taking their own temperatures each day prior to entering the school or being on the school property. A parent or guardian is responsible for completing the daily screening on behalf of their child(ren).

Self-Screening:

Below are the self-screening questions that employees, parents, children and essential visitors are required to answer daily. If the answers are "No" to all of the following questions, individuals may enter the school, if you answer yes please contact the school principal. (If employees, parents, children and/or essential visitors cannot take their temperature at home, but answer "No" to all other questions, they may report to the school to have their temperature taken on-site).

- (a) Have you been in close or proximate contact in the past 14 days with anyone who has tested positive through a diagnostic test for COVID-19 or who has or had symptoms of COVID-19?
- (b) Have you tested positive through a diagnostic test for COVID-19 in the past 14 days?
- (c) Are you currently experiencing any symptoms of COVID-19, including a temperature of greater than 100.0°F in the past 14 days.
- (d) Is your body temperature at or above 100.0 degrees Fahrenheit or have you or your child (ren) taken any temperature reducing drug. (ie. Tylenol, Advil, Benadryl, Motrin, Aspirin) within the last 24 hours?
- (e) Have you traveled internationally or from a state with widespread community transmission of COVID-19 per the New York State Travel Advisory in the past 14 days? (https://coronavirus.health.ny.gov/covid-19-travel-advisory for Official State List)

If you answer YES to any of these questions on any given day, you or your child <u>may not enter the school building.</u>
Contact a medical professional for guidance and notify the school principal.

Depending upon the answers to the screening questions, you or your child may need to receive medical clearance to return to work or school. If you or your child is sick with a common cold or other ailment not related to COVID-19, stay home until symptoms subside and you or your child (ren) fever free without the aid of a temperature reducing drug.

By signing below and submitting this form, you acknowledge that you received the attached daily checklist that you will complete it each school day for yourself or your child (ren) for the 2020-2021 School Year.

Signature of Parent or Guardian			Date:	
Student Name		Grade:		
Restricted States	 Alabama 	 Kansas 	Puerto Rico	
8/31/2020	 Arkansas 	 Kentucky 	 South Carolina 	
Based upon Governor Cuomo's Executive Order	 California 	 Louisiana 	South Dakota	
205, issued June 25, 2020,	 Florida 	 Minnesota 	 Tennessee 	
the following states	 Georgia 	 Mississippi 	Texas	
&territories meet the criteria for required quarantine: This	● Guam	 Missouri 	● Utah	
is based upon a seven-day	 Hawaii 	 Nebraska 	Virginia	
rolling average, of positive tests in excess of 10%, or	Idaho	 Nevada 	 Virgin Islands 	
number of positive cases	 Illinois 	 North Carolina 	 Wisconsin 	
exceeding 10 per 100,000 residents. Check website	 Indiana 	North Dakota		
above for updated list daily.	lowa	 Oklahoma

PLEASE KEEP THIS PAGE AT HOME ON YOUR COUNTER OR BY THE DOOR- DO NOT RETURN FOLLOW THESE GUIDELINES EACH DAY TO DETERMINE IF YOUR CHILD IS ABLE TO ATTEND SCHOOL
Parents should take their child's temperature every day before their child leaves for school. If your child has a fever of 100.0 or over, your child should be kept home from school. A fever is a key symptom of COVID-19. You should ask your child if he/she has any other symptoms of COVID-19 (see below). If your child complains of these symptoms or has a fever, or you answer yes to a question in section two, please, keep them home, call your child's doctor and
contact the school to report your child's absence. If your child is sick with a common cold or
other ailment your child should stay home until symptoms subside and they are fever
free. We strongly encourage every student to receive the FLU vaccine this year!
SECTION 1: Symptoms
Before you or your child leaves for school each day – Consider all that apply:
fever or chills – Is fever 100.0°F or higher?
sore throat, congestion, or runny nose?
new or worsening cough that cause's difficulty breathing?(If your child has chronic allergies, or an asthmatic cough, is there a change in their cough from baseline?)
diarrhea, nausea, or vomiting?
onset of severe headache, especially with a fever?
fatigue, muscle or body aches; loss of taste or smell?
People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear 2-14 days after exposure to the virus. People with these symptoms may have COVID-19. This list does not include all possible symptoms. CDC will continue to update this list as they learn more about COVID-19. https://www.cdc.gov.
SECTION 2: Close Contact/Positive Test/Potential Exposure& Travel
had close contact (within 6 feet of an infected person for at least 10 minutes) with a
person confirmed positive in the past 14 days or tested positive for COVID-19 yourself?
have traveled internationally or from a state with widespread community transmission
of COVID-19 per the New York State Travel Advisory in the past 14 days?
(https://coronavirus.health.ny.gov/covid-19-travel-advisory) for Official State List.
